MCI 0005 Overhead construction standards manual

Contents

SECTION 1 — Introduction
  1.1 Purpose
  1.2 Scope
  1.3 References
  1.4 Definitions and abbreviations
  1.5 Actions
  1.6 Authorities and responsibilities
  1.7 Document control

SECTION 2 — Basic requirements
  2.1 General requirements
  2.2 Property tenure arrangement and easements or legally equivalent
  2.3 Network records
  2.4 Quality of materials
  2.5 Duty of care
  2.6 Approved materials
  2.7 Environmental requirements

SECTION 3 — General construction requirements
  3.1 Actions
  3.2 Mains constructions
  3.3 Footpath allocation for Endeavour Energy assets
  3.4 Common constructions and fittings
  3.5 Equipment/asset numbering
  3.6 Clearances
  3.7 Pole details
  3.8 Pole footings
3.9 Stays
3.10 Stay footings
3.11 Installation of communications cables on Endeavour Energy poles
3.12 Railway crossings
3.13 Conductor restraint treatment
3.14 Tree trimming for new construction
3.15 Conductor position on poles
3.16 Unused phase conductors
3.17 Conductor fittings
3.18 Pole steps
3.19 Prevention of unauthorised climbing
3.20 Conductor sagging and tensioning
3.21 Pole mounted operational equipment
3.22 General construction drawings
3.23 Parts and accessories drawings
3.24 Parts and accessories list
3.25 Assemblies

SECTION 4 — Low voltage mains constructions
4.1 LV mains requirements and common constructions
4.2 LV aerial services
4.3 LV ABC mains constructions
4.4 LV bare mains constructions

SECTION 5 — 11kV and 22kV mains constructions
5.1 HV mains general requirements and common constructions
5.2 CCT mains constructions
5.3 11kV NMSHVABC mains constructions
5.4 Bare mains constructions
5.5 12.7kV SWER mains constructions

SECTION 6 — Transmission constructions
6.1 33kV and 66kV mains constructions
6.2 132kV mains constructions
6.3 Earthing, OHEW and OPGW
6.4 Assemblies and general requirements
6.5 Parts list and fabrication drawings

SECTION 7 — Stringing tables
7.1 Bare mains
7.2 Low voltage aerial bundled cable (LV ABC)
7.3 High voltage aerial bundled cable (NMSHVABC)
7.4 11kV covered conductor thick (CCT)
7.5 22kV covered conductor thick (CCT)

SECTION 8 — Substations, regulators, reclosers, and other equipment
8.1 General construction requirements (all equipment)
8.2 Pole substation fuses
8.3 Pole substation constructions
8.4 Pole mount voltage regulator construction
8.5 Pole mount recloser and load break switch (LBS) construction
8.6 Pole mount sectionaliser construction
8.7 Line fault indicators (LFI)

SECTION 9 — Street lighting
9.1 Street lighting standard - LCI 0001
9.2 Streetlight construction drawings

SECTION 10 — Earthing
10.1 Earthing standard - EDI 100
10.2 General earthing drawings
10.3 ABS earthing drawings
10.4 UG/OH earthing drawings
10.5 Recloser/load break switch earthing drawings
10.6 Substation earthing drawings

SECTION 11 — Testing
11.1 Testing standard - SDI 120
11.2 Test construction drawings

SECTION 12 — Technical bulletins
12.1 General information
12.2 Lifetime of a technical bulletin
12.3 Technical bulletin reference list
# AMENDMENT RECORD

This entire document was issued as Amendment no. 0. Since that time the following amendments have been made:
