Owner	Name:
	Address:
	Phone:
	Email:

The Owner notifies Endeavour Energy that the owner accepts Site-Specific Conditions for Premises Connection Assets to be installed on the Site as set out in pages 2 and 3 of this notice.

The Site-Specific Conditions will affect that part of the Site around the Premises Connection Assets shown as a Protection Zone on the Design Drawing.

The Site-Specific Conditions will be recorded by Endeavour Energy in a register and will apply for the life of the Premises Connection Assets.

Premises Connection Assets Site-Specific Conditions

1.0 Background

- 1.1 Where the supply of electricity exceeds that which can be supplied by a service line from the street mains the Network Operator may require the customer to provide a place to accommodate its electrical equipment ("Premises Connection Assets"). (See section 28 *Electricity Supply Act 1995*)
- 1.2 Under Chapter 5A of the National Market Rules and the Model Standing Offer a Customer may be connected to the distribution system subject to Site-specific Conditions.
- 1.3 These Conditions are imposed in lieu of the Customer creating a registered Land Interest for the Premises Connection Assets.

2.0 Definitions

- 2.1 **120/120/120 Fire Rating** and **60/60/60 Fire Rating** means the fire resistance level of a building expressed as a grading period in minutes for structural adequacy / integrity failure / insulation failure calculated in accordance with Australian Standard 1530.
- 2.2 **Customer** means the person that submits an application for a Connection Service and includes any subsequent Owner.
- 2.3 **Premises Connection Assets** means all components of the Network Owner's Distribution System dedicated to the supply of electricity to the Site from the Network Owner's Distribution System.
- 2.4 **Protection Zone** means any part of the Site that accommodates Premises Connection Assets and is shown as a Protection Zone in the Design Drawing.
- 2.5 **Network Operator** has the same meaning as the Electricity Supply Act 1995.
- 2.6 **Network Owner** means Epsilon Distribution Ministerial Holding Corporation ABN 59 253 130 878 who may exercise its rights by any persons authorised by it.
- 2.7 **Model Standing Offer** means the Endeavour Energy Model Standing Offer for a Standard Connection Service for Customers.
- 2.8 **Owner** means the person who controls the Site.
- 2.9 **Site** means the Customer's premises supplied by the Premises Connection Assets.

3.0 The Owner must:

- 3.1 provide a Protection Zone for use by the Network Owner and the Network Operator to accommodate the Premises Connection Assets,
- 3.2 provide the Protection Zone free of cost,

Notice of Acceptance of Site-Specific Conditions

Endeavour Energy project number	
---------------------------------	--

- 3.3 maintain the Protection Zone in a satisfactory state of repair, but is not responsible for maintaining the Premises Connection Assets,
- 3.4 not change surface levels within the Protection Zone,
- 3.5 not install anything, or plant trees and shrubs, within the Protection Zone without the Network Operator's prior written approval,
- 3.6 if the Protection Zone is located within its building, not interfere with the ventilation of the Protection Zone,
- 3.7 not direct drainage into the Protection Zone,
- 3.8 not do or permit to be done anything that restricts the Network Operator's access to the Premises Connection Assets, and
- 3.9 if the Protection Zone is located outside its building, not construct or maintain a substantial structure with roof and walls unless the external surface of the structure has:
 - 3.9.1 *120/120/120 Fire Rating* within 1.5 metres of the Premises Connection Assets, and
 - 3.9.2 *60/60/60 Fire Rating* between 1.5 and 3 metres from the Premises Connection Assets.

4.0 The Network Operator may:

- 4.1 install, repair, replace, maintain, modify, use, operate and remove Premises Connection Assets within the Protection Zone,
- 4.2 enter the Site using the most practical route at all reasonable times (and at any time in the event of an emergency) and remain there for any reasonable time,
- 4.3 if the Protection Zone is located within a building, install its own security doors to gain access and to prevent access by others,
- 4.4 install conduits, cables, and pipes on, under or through the Site for the purpose of connecting the Protection Zone with any services and to operate those services, and
- 4.5 supply other customers from the Premises Connection Assets.

5.0 The Network Operator must:

- 5.1 maintain the Premises Connection Assets in a safe and reliable condition,
- 5.2 not cut, drill or demolish any part of the Site without the written permission of the Owner and in accordance with such conditions as the Owner may reasonably impose, and
- 5.3 take reasonable precautions to minimise disturbance to the Site and restore the Site as nearly as practicable to its original condition.
