- Have a good night
- every night with
- Endeavour Energy
- : Nightwatch

The right lighting around your business premises can bring many benefits.

It will make your staff feel safer and help discourage criminal activity such as break-ins, vandalism and graffiti. It also makes your premises easier to monitor for police and security patrols.

As an added benefit, by giving the public a clearer view of your premises at night it provides inexpensive and effective outdoor advertising that will get your business noticed.

A bright investment

Give yourself peace of mind with an Endeavour Energy Nightwatch service at a low monthly rental and a one-off installation fee depending on your site requirements and the length of the rental period.

Your one-off installation fee and monthly rental covers all the lighting equipment, maintenance and electricity costs, so there are no hidden charges. And installation is easy - the Endeavour Energy Nightwatch is simply attached to the power poles or columns outside your business premises.

- Call now
- for more details

Contact us and a trained consultant will come to your premises and provide a free, no-obligation review and recommendation. Details below.

Who's watching your business tonight?

Endeavour Energy Nightwatch enhances visibility for greater security and better promotion after hours.

Endeavour Energy Nightwatch is the simple way to protect and promote your business after dark.

It's a cost-effective lighting solution that uses the existing Endeavour Energy power poles outside your business. You get to choose the type of lighting and, once installed, Endeavour Energy Nightwatch operates automatically from dusk to dawn every day. Plus, it's fully maintained and repaired by Endeavour Energy.

Just look at the advantages Nightwatch offers your business:

- Increased security
 - Easy installation
- Added promotion
- Easy maintenance
- Low monthly rental

Whether you're looking to increase the security of your premises, illuminate a car park or you simply want to highlight your business after dark, as your local energy network provider Endeavour Energy can help choose the best Nightwatch solution for your premises.

As your lighting is installed using Endeavour Energy's existing network of poles and columns, this service is only available in Endeavour Energy's network area.

66 For the security of customers and staff, McDonald's has to be well illuminated. Endeavour Energy Nightwatch floodlights do the trick and we don't have to maintain them. **99**

lan Garton McDonald's restaurant owner

•• Our Nightwatch lights have been a fantastic way to showcase our display homes at night for passing traffic as well as provide great security that is tamper proof and elevated away from vandals. I have been using them for over a decade with great results. No need for unsightly fittings and posts in our gardens, we love them and they are now an essential item when planning our displays and offices. **99**
