- **Electric Kids Safety Video Competition**

As part of Electricity Safety Week 2021, Kindergarten to Year 6 students across Endeavour Energy's network are invited to create a 30-second video that highlights one or more important electricity safety messages.

Entries will be judged on creativity and effectiveness of conveying one or more of the five electricity safety messages below. The winning video will receive \$1,000 for their school P&C Committee.

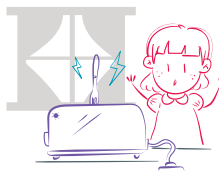

1. Avoid playing near powerlines

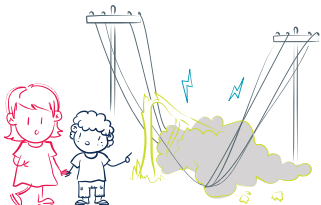

2. Never play on or near electrical equipment

3. Water and electricity don't mix

4. Never put a metal object in a toaster or powerpoint

5. If you see a dangerous situation, tell an adult

Electricity Safety Week

6th-10th September 2021

Electric Kids
Safety Video
Competition

How to enter

- Students/schools can enter as groups or a class
- There can be multiple entries per school, the more you enter the better chance your school has of winning!
- No copyrighted materials can be included (i.e. music)
- Each video entry must highlight at least one safety message
- All entries must be received by Friday 5 November 2021
