

2022 APPRENTICESHIPS

Recruitment process

Process Step (We will notify you at each stage)

Between 2 - 27 August 2021, apply at <https://careers.endeavourenergy.com.au/>
The process starts when you create and activate a candidate profile, then fill in the application form and attach a resume.

All candidates will be invited to complete a series of online assessments related to suitability for working in a technical trade. The assessments include numerical and spatial reasoning, safety, and workplace behaviours.

If you are shortlisted, we will send a request for you to submit a short video recorded on your mobile phone. This will give us an extra opportunity to learn more about you.

At this stage candidates are invited to meet some of our team for a panel interview where we can learn more about your skills, experience and interests. We'll also provide more information about **Endeavour Energy**, the Apprenticeship and our team.

Next there'll be an opportunity to check out our training facilities, experience climbing a pole and try on some of our personal protective equipment. We'll also ask to contact your referees and you'll participate in a series of checks including medical and background checks.

Candidates who are selected for our Apprenticeship will be notified of their success by phone. You'll then receive a formal offer and commence the onboarding process.

Apprenticeships will commence in January 2022. You'll get the chance to learn more about Endeavour Energy and your new Apprenticeship before starting TAFE in February.

Helpful Hints

Keep an eye on your emails for updates on your application. Join us for an online Q&A session on Saturday 14 August.

There's no study needed, and you'll be able to see example questions before you start the assessment. Find a quiet place where you can focus.

Practice what you are going to say, then just let your natural personality shine through

You can meet current and past apprentices, ask them questions about the company and Apprenticeships

You'll get an insider's look at what it's like to be an Apprentice at Endeavour Energy.

Offers are sent through our online portal, and you'll be on the way for a great start.

Our onboarding program will prepare you to become part of the Endeavour Energy team.
