<b>Address/Location of workplace:</b>	Number/name of street:	
	Suburb / Postcode:	

<b>Estimated Commencement Date:</b>		<b>Estimated Completion Date:</b>	
-------------------------------------	--	-----------------------------------	--

- Endeavour Energy will contact the applicant to advise of a date/time to meet at the nominated site to provide relevant safety advice.
- Where work will encroach in the unsafe distance of the overhead power lines, the Third Party and/or his representative must ensure that the appropriate exclusion zones are maintained until written safety advice is received from the relevant supply authority.
- The written safety advice shall be issued to the nominated responsible person by a representative of the relevant supply authority.
- Charges may apply for the installation of aerial markers, de-energisation or relocation of overhead power lines, or the provision of an approved Safety Observer (if required) to carry out the work near overhead power lines.

I have obtained a copy of the NSW Code of Practice 2006 "Work near overhead power lines" and the relevant guidance material published by Safe Work Australia and acknowledge that I am required to maintain an exclusion zone around the overhead electric lines until such time as I receive written safety advice from the relevant supply authority.

- For a timely response, it is advised you provide any or combination of the following (if applicable):
- Relevant training and/or licensing is held by all personnel including:
    - High-Risk Work (HRW) license of Crane operator, boom pump operator, dogman, scaffolding tickets, EWP/boom ticket, etc.
    - Evidence of completion for Safety Observers and Operators of the following course: UETTDREL14A – Working safely near live electrical apparatus as a non-electrical worker
  - Confirmation that procedures are in place regarding:
    - Adequate protocol for observing and communication between plant operators and ground crews
    - Emergency procedures in place regarding contact with powerlines
    - Appropriate rescue, response, and first aid measures available on site
