

Environmental Commitment Statement

Endeavour Energy is committed to enhancing our environmental performance and reducing our environmental footprint, through protecting the environment, adherence to compliance obligations and focusing on continuous improvement.

As an organisation we will:

- Have a positive impact on the environment for future generations;
- Be a leader in environmental standards;
- Consider the impact of our network and operations on the community;
- Provide appropriate training and awareness to staff;
- Embed a reporting culture so that we can continue to learn and improve;
- Provide the means for correct disposal of waste and recycling of all materials;
- Ensure all jobs are completed with minimal impact on the environment; and
- Engage with communities and other external stakeholders where our operations have the potential or are perceived to have an adverse impact on the surrounding Environment.

Our workers will:

- Treat the environment with respect, like it is their own;
- Protect the environment with every activity carried out;
- Leave the worksite how we arrived, take the time to pick up the waste;
- Not waste the waste, we will sort it out; and
- Respect the community in which we work.

Our worksite, our world, protect it

Guy Chalkley
Chief Executive Officer
